

Vibrations of Anarchy

Instalation and User Instructions

Project link: <https://olgazaremba.github.io/Vibrations-of-Anarchy>

This work draws inspiration from the visual elements of the carpenter's craft. From this same framework emerge two interpretations: one focusing on the poet's connection with Vila do Conde through the town's azulejos, and another using the hammer as a symbol of manual labour to activate the anarchist and social fragments in the author's poetry.

To begin the experience, start by pointing your camera at the red cover of the book entitled 'Vibrações da Anarquia'; next, point your camera at the open pages and interact with the hammer; finally, point your mobile phone at the tile.
